Foreword

This is a pivotal time in the history of the Ministry of Education and Technical Education (MOETE) in Egypt. We are embarking on the transformation of Egypt's K-12 education system (Education 2.0) starting in September 2018 with KG1, KG2 and Primary 1, continuing to be rolled out year after year until 2030. We are transforming the way in which students learn to prepare Egypt's youth to succeed in a future world that we cannot entirely imagine. The rapid technological advancement and disruptions to industries and the workplace requires MOETE to undergo a major configuration of when to learn and what to learn. The foundational skills of literacy, numeracy and digital literacy are the core. Education at a young age also needs to be multidisciplinary to broaden students' horizons, integrating the essential soft skills and competencies such as communication and critical thinking into the school curriculum. There must be joy in learning so that students are motivated to engage in lifelong learning throughout their lives keeping up and staying ahead of changes in the world.

Curriculum is not the end but the beginning of the important process of changing Egypt's education system. MOETE is very proud to present this new series of textbooks, *Connect Plus*, with the accompanying digital learning materials that capture its vision of the transformation journey. This is the result of much consultation, much thought and a lot of work. We have drawn on the best expertise and experience from national and international organizations and education professionals to support us in translating our vision into an innovative national curriculum framework and exciting and inspiring print and digital learning materials.

The MOETE extends its deep appreciation to its own Center for Curriculum and Instructional Materials Development (CCIMD) and specifically, the CCIMD Director and her amazing team. MOETE is also very grateful to the minister's senior advisors for curriculum and early childhood education. Our deep appreciation goes to Discovery Education, Nahdet Masr, Longman Egypt, UNICEF, UNESCO, World Bank Education Experts and UK Education Experts who, collectively, supported the development of Egypt's national curriculum framework. I also thank the Egyptian Faculty of Education professors who participated in reviewing the national curriculum framework. Finally, I thank each and every MOETE administrator in all MOETE sectors as well as the MOETE subject counsellors who participated in the process.

This transformation of Egypt's education system would not have been possible without the significant support of Egypt's current president, His Excellency President Abdel Fattah El-Sisi. Overhauling the education system is part of the president's vision of 'rebuilding the Egyptian citizen' and it is closely coordinated with the Ministries of Higher Education and Scientific Research, Culture, and Youth and Sports. Education 2.0 is only a part in a bigger national effort to propel Egypt to the ranks of developed countries and to ensure a great future to all of its citizens.

A Word from the Minister of Education and Technical Education

It is my great pleasure to celebrate this extraordinary moment in the history of Egypt where we launch a new education system designed to prepare a new Egyptian citizen proud of his Egyptian, Arab and African roots - a new citizen who is innovative, a critical thinker, able to understand and accept differences, competent in knowledge and life skills, able to learn for life and able to compete globally.

Egypt chose to invest in its new generations through building a transformative and modern education system consistent with international quality benchmarks. The new education system is designed to help our children and grandchildren enjoy a better future and to propel Egypt to the ranks of advanced countries in the near future. The transformation of the Egyptian citizen is Egypt's national project for the years to come and it is the only safeguard for a prosperous future.

The fulfillment of the Egyptian dream of transformation is indeed a joint responsibility among all of us; governmental institutions, parents, civil society, private sector and media institutions. Here, I would like to acknowledge the critical role of our beloved teachers who are the role models for our children and who are the cornerstone of the intended transformation.

I ask everyone of us to join hands towards this noble goal of transforming Egypt through education in order to restore Egyptian excellence, leadership and great civilization.

My warmest regards to our children who will begin this journey and my deepest respect and gratitude to our great teachers.

Dr. Tarek Galal Shawki

Introduction

Introduction

Welcome to *Connect Plus* Primary 1. This new primary English course uses the latest methodological techniques for young learners and establishes a solid foundation on which students can build their English language knowledge. The course creates an enjoyable and engaging environment full of fun, engaging activities, in which to encourage the students' language development.

Aims of the course

Connect Plus aims to give Primary students the tools they need to develop their knowledge and use of English, and to increase their grasp of both the spoken and the written language, including basic phonetic sounds. It has a background in the cognitive-developmental theory which supports and guides children as they construct their own understanding of the world. The course also caters for the increasing English language needs of language school students who are studying multidisciplinary themes in English. The course has been developed to support teachers and students to achieve the objectives of the curriculum reform at the heart of the Egypt Vision 2030. It has been carefully designed to support whole child development: it not only supports the language development of the child, but also attends to their physical, cognitive and emotional needs. Therefore, the activities combine life skills, values, issues and challenges, and Content and Language Integrated Learning (CLIL) with songs, games, stories and projects to create a comprehensive, successful learning experience.

The units are divided into four main themes (Who am I?, The world around me, How does the world work?, Communication), encouraging the students to gradually develop their understanding of themselves, their environment and their citizenship.

Topics

The context of *Connect Plus* Primary 1 reflects the children's environment, so the topics draw on their knowledge and subsequently challenge them to discover more about the world through English. Topics in *Connect Plus* Primary 1 include description of physical appearance, school, farm animals, transport and places around us.

The main characters

Hany and Hana are the main child characters. They are a brother and sister who live with their immediate family. They are in Primary 1 and have two close friends, Amira and Youssef. The characters are learning about their environment and the world around them, so the students studying the course learn with them.

Busy Bee is a kind, wise, responsible and knowledgeable queen bee. She guides the characters as they develop and grow as individuals. She is represented throughout the course in the activity icons, which clearly show students the activity type alongside each rubric.

Course outline

The course has the following components:

Student's Book

The Student's Book consists of two terms. Each term has six main units plus two review units.

Each unit has an appropriate topic for young children. The lessons in each main unit include a variety of the following features:

- presentation of vocabulary in the context of an illustration
- listening and speaking practice of the target language of the unit, presented in clear contexts
- phonics presentation and practice, including listening, speaking and writing tasks
- deeper exploration of values, life skills or issues
- integrated content from other curriculum areas, such as Art, Science, Social Studies and Math
- a song to practice target vocabulary and language
- a project in which students complete a craft project and present it using the unit vocabulary
- a *Show and tell* activity
- a unit review section

The review units, which appear after each group of three units, are designed to practice and consolidate the language students have learned so far. The revision units are also an extremely useful progress check for both teachers and students, facilitating both assessment by the teacher and self-assessment by the student. Each revision unit has four pages and two lessons.

Activity Book

The Activity Book also consists of six main units plus two review units in each term. Each unit provides reinforcement and extension activities for the content in the corresponding Student's Book pages. Activities include listening, speaking, coloring and craft activities.

The phonics pages provide further sound practice in addition to reading and writing skills. The activities guide children as they blend the letters and begin to read words and simple sentences.

CD

The audio CD includes all the recorded material with age-appropriate songs and stories, which have been carefully written and produced for the age group. It is an invaluable resource and should be used as directed in the Teacher's Guide in every unit. The recorded material provides not only an accurate model of the language for the students but also a useful teaching tool, enabling you to vary the activities and pace of the lessons.

Teacher's Guide

A full-color Teacher's Guide with every page of the Student's Book and the Activity Book inset with the accompanying notes, this comprehensive guide provides detailed lesson plans on how to teach all activities, along with suggested key teacher language. It aims to help you to get the most out of the materials you have both on the page and on the CD. Audioscripts for all the recorded material are also provided.

Each lesson begins with a lesson box highlighting objectives, vocabulary, key language and additional material required for the lesson, including any other materials that may need to be prepared beforehand.

Step-by-step teaching notes suggest how to approach the lesson. Every lesson begins with suggested *Opener* activities to revise language from previous lessons. The notes suggest many ideas about how to access previous knowledge and experiences within new topics. The activities outlined in the teaching notes can be adapted to suit students who are more confident and who are making rapid progress, or those students needing more practice and revision. There are *Fast finisher* activities and practice game suggestions at the end of each lesson.

The Teacher's Guide also provides suggestions for successful classroom management. Young Learners have limited concentration spans and particular needs. It is therefore important to vary your teaching approach to enable each individual student to participate, as well as to use group work, pair work and class work effectively.

The Teacher's Guide suggests how you can adopt a 'stop and check' approach to ensure students are confident before moving on. This approach supports the assessment of students' progress on an ongoing basis.

Posters

There is a poster for each thematic unit, which illustrates all the main vocabulary on one large single image. The posters can be used to present and review vocabulary.

Flash cards

To facilitate learning, flash cards are provided for all the key vocabulary in each unit. They can be used during the *Opener* activity in each lesson to present or revise language and can also be used during pair activities, role-plays and memory games. The list of flash cards necessary for each lesson is indicated in the materials section of the lesson box.

Phonics cards

Phonics cards are provided for each of the phonic sounds presented on the course. These are full-color cards with the sound, a picture and the word of a key vocabulary item which represents this sound, for example the letter b with a picture of a book. They can be used as visual reinforcement to revise key sounds in matching activities and in memory or guessing games.

Digital toolbox

Digital resources include videos of songs and stories, as well as additional factual material to support the topics in the Student's Book. Using digital materials in your lessons, alongside printed materials and realia, helps to give more variety for students. This is particularly important for Young Learners, who have short attention spans.

Introduction

Teacher assessment

Connect Plus has no formal assessment. This is deliberate so that students focus on enjoying English and can learn without the pressure of tests.

At the end of each Review unit, there is a Teacher assessment, which allows you to keep track of your students' progress. This should be used to help you structure your lessons. Look out for problem areas where students need more practice. You can then make sure that you revise this language in future lessons.

For your own records, give students a grading for each skill based on the levels in the table below. Then, for each student, tick the correct colored circle in the Student's Book to represent their general progress in all the skills. For your own records, prepare a list of the unit objectives. If students have achieved all of these objectives and if they are using them to talk about self or others, tick the blue circle. If students have achieved all of the objectives, tick the green circle. If they have achieved most of the objectives, but still they need more practice, tick the yellow circle. And if they are struggling to achieve the unit objectives, tick the red circle and keep in mind that they need more effort on your part as well as on theirs.

Make sure that the students know that a tick next to a red or yellow circle does not indicate failure, but is just a sign that they need to revise the language in this unit.

Teacher assessment

How to use the course

Unit walkthrough

The first lesson of each unit consists of two pages in the Student's Book and two pages in the Activity Book. For the rest of the unit, there is one Student's Book page and one Activity Book for each lesson. Each lesson has a particular focus.

Unit opening lesson

The unit topic is introduced through a fun and realistic dialog.

The lesson works towards the children using language to express themselves.

Students listen to the new words and see clear pictures of them to help their understanding. The words are written under the pictures to help students become accustomed to reading the new words.

The activities are clearly shown to the students with the fun icons of Busy Bee.

The artwork is bright and colorful with lots of details for students to find and discuss.

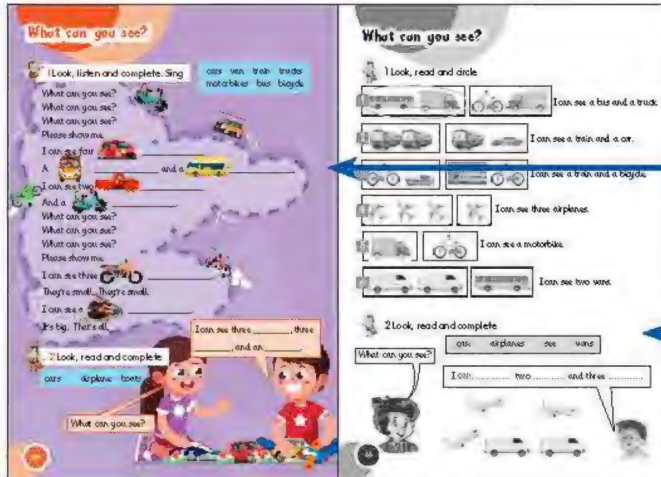

The language in each lesson is clearly presented to teachers and parents in the footer.

The Activity Book offers a chance for further reading and writing practice of the new language, through fun, engaging exercises.

Introduction

Vocabulary

Vocabulary is presented and practiced in a variety of ways so that the students enjoy learning. In this lesson, extra vocabulary practice is introduced with a song.

The Activity Book gives further background information and extra practice of language presented in the Student's Book. In this lesson, students read about and write the different spellings for modes of transport they learned.

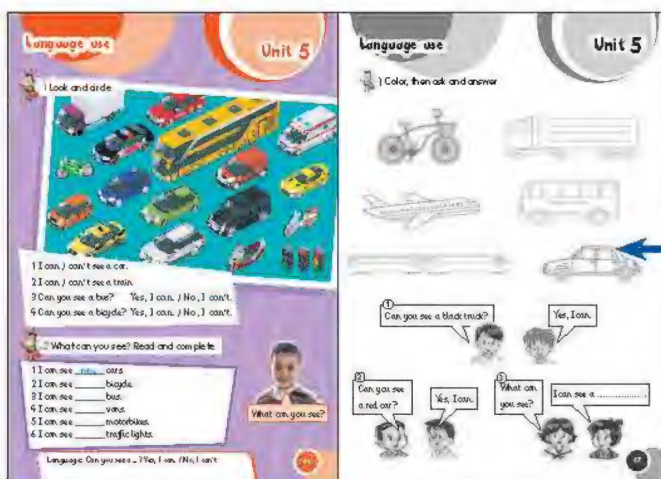

Life skills, Values and Issues

Life skills, Values and Issues are integrated throughout the course, but there are also particular lessons which focus on an issue, value or life skill that is related to the unit topic. This lesson is about prepositions of places so the students can learn to describe the position of buildings and things around them.

The topics of the Life skills, Values and Issues pages are carefully chosen to present goals that students can achieve for themselves.

Listening and speaking / Reading and writing

This lesson shows how the Activity Book complements the Student's Book. Using the two books together enables students to practice all four language skills and gain confidence to listen, speak, read and write in English.

Introduction

Vocabulary

Vocabulary is introduced with pictures and then practiced in fun activities such as a word search, and in the realistic context of a dialog.

Reading

Photographs show scenes that will be familiar to the students and which they can relate to their own lives.

Reading passages are carefully graded and include familiar vocabulary so students can gradually build up their confidence to read longer texts.

Longer texts like this one are also recorded on the audio CD, so students can listen and read. This is excellent way to improve pronunciation.

Cross-curricular content / Speaking

Content from other areas of the curriculum, including Math, Science, Social Studies, Art and Music, is integrated throughout the course.

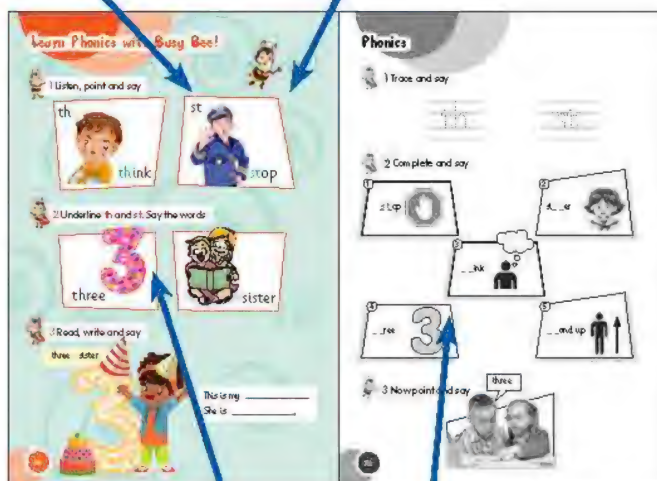

In this lesson, Science is integrated with the pollution topic. Students learn about what's good and bad for the Earth.

Introduction

Phonics / Handwriting

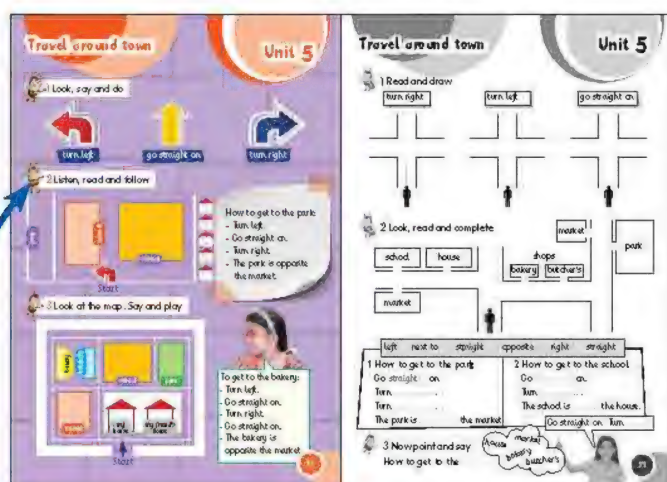

Students listen to the phonics on the CD, which presents the target sounds and words. They listen and repeat the sounds.

The letter sounds are presented within words that are known or simple and common so that students can link a new concept to familiar words and objects.

Students are encouraged to listen and understand how words are formed by blending sounds. They then move on to blending sounds and forming the words themselves.

Listening and speaking

Listening exercises begin by answering a simple question. Students are not expected to understand the whole conversation immediately. Encourage them to find the answer to the question and then to listen again to get more information.

The listening task on this page serves as a model for giving directions. When students are confident with giving directions, encourage them to expand it with their own ideas.

Introduction

Listening and speaking / Cross-curricular content

The image shows two worksheet pages. The left page is titled 'Road safety' and includes activities like '1 Listen, look and read' with images of a cyclist and a pedestrian, '2 Listen, read and say' with a 'STOP' sign, and '3 Ask and answer for you' with icons for a seatbelt, cell phone, and bright clothes. The right page is titled 'Values Road safety' and includes activities like '1 Read, look and write' with a word bank (bicycle, clothes, helmet, music, seatbelt, signs), '2 Read and write' with a list of actions (Wear a cycle helmet, Ride your bicycle in a safe place, Look at the traffic lights, Don't listen to music, Wear bright clothes, Wear a seatbelt), and '3 Read and draw' with a drawing area for a road scene.

In this task, the students apply problem solving skills to learn how to be safe on the road.

The emphasis of the course is always to have fun using English as a communication tool, so lessons include plenty of speaking activities, games and puzzles.

Wider world / Reading

The image shows two worksheet pages. The left page is titled 'Wider world' and includes activities like '1 Listen, look and read' with images of rockets and space, '2 Read again and match' with a list of actions (Rockets fly, Rockets make, Astronauts can), and '3 Read and draw' with a drawing area for a rocket. The right page is titled 'Wider world: Rockets' and includes activities like '1 Look and match' with images of rockets and space, '2 Read and complete' with a text box for a sentence about rockets, and '3 Read and draw' with a drawing area for a rocket.

The Wider world reading page expands upon the topic to teach students more about the topic of the unit.

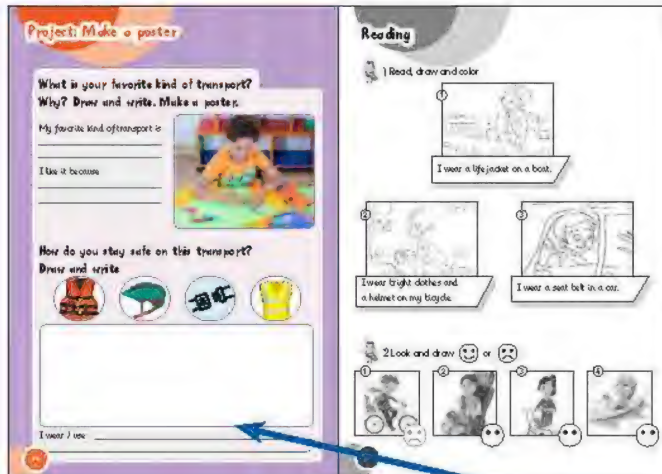

In this lesson, students learn more about rockets.

The reading texts are accompanied by bright, colorful photos which help with understanding.

Introduction

Project

Every unit includes a project. This consolidates the language of the unit, and provides practice on Life skills, Values and Issues of the unit. This project is an indirect assessment tool for teachers.

Both creativity and working in groups are important elements of the Primary 1 curriculum. Students should work together, sharing resources and cooperating with each other.

Full guidance on how to complete the project is given in the Teacher's Guide.

After completing the project, the students show their creation to the class or their group.

Unit review

Every unit ends with a unit review. This revises the language that the students have learned in the unit. The Teacher's Guide suggests fun extension activities to give extra practice in any areas that need revision.

The communicative approach

Listening and speaking are vital language skills for communicative competence and *Connect Plus* Primary 1 offers an interesting and varied range of activities for you to present to your students. The course presents new structures and vocabulary gradually in class, group and pair work through the context of unit topics, short narratives, interactive activities and songs and games until they become a part of the students' active repertoire.

For Primary 1, the language and topics of the course remain close to the world of the student, only gradually moving out into the world beyond, and returning regularly to familiar territory. In this way, the students' learning feels relevant and personal to them and about them. The course has also been designed to complement the rest of the curriculum for Primary 1, so that vocabulary and topics are familiar.

The new structures and vocabulary introduced throughout the book are continually recycled, and detailed notes in this Teacher's Guide encourage you to use a variety of teaching methods when presenting new language. Different ways of setting up group work, pair work and whole class activities are all explained in the Teacher's Guide to ensure that students remain active and interested learners of English and to facilitate self-assessment by students to monitor their continued progress.

The syllabus both develops and consolidates the skills of reading and writing. Throughout this course, short texts serve as models which are used for comprehension and writing.

The communicative approach exposes the students to a range of structures used in English, helping them to engage with meanings in English and encouraging enjoyment in using the language. It enables the teacher to set up learning activities in the classroom and provides useful classroom routines to assist the students' learning. Through the communicative approach your students will be encouraged to become active and enthusiastic learners of English.

The role of the teacher

In the communicative classroom, you have many roles:

- 1 **Instructor:** You introduce new language, give instructions to students, and decide what language and activities need to be practiced.
- 2 **Manager:** You organize the classroom in order to fulfil the different activity requirements. This may involve organizing students to work in pairs or groups (see detailed notes below).
- 3 **Advisor:** When students are working in pairs or groups, you move from group to group to monitor progress, help individual students with unknown words or difficulties in understanding the activity, or correcting mistakes.
- 4 **Personal tutor:** You need to identify individual students' areas of difficulty and find ways of helping them.

Preparation for teaching

Each lesson contains suggestions to help you to prepare adequately. The relevant Student's Book pages are always given at the beginning of the teaching notes and any further resources required for the lesson are listed. Always prepare by reading through the lesson notes before the lesson, making or collecting any additional resources required, so that you are fully equipped and ready to teach the lesson. You will also need to prepare listening activities involving the CD in advance.

Teaching reading and writing skills

This course has been carefully designed to support both pre-literacy and early literacy skills in the developing child. In the emergent stage, a child is learning about print and sound as they develop oral language. This course strives to provide all the necessary resources and activities to help a child develop oral language through listening and recognition activities, songs, stories and simple dialogs.

The development of age-appropriate writing skills is also carefully introduced. Attention is given to the correct seated position for writing. Students should sit straight upright facing their desk with their feet flat on the floor in front of them. Attention is also given to the development of fine motor skills such as holding a pencil or crayon correctly. They should hold the pencil between their

Introduction

thumb and forefinger, with the pencil resting on the third finger in a tripod grip. The thumb and forefinger should be able to move slightly – make sure students don't grip the pencil too tightly.

Students are asked to trace and copy words and short phrases at first. As they build confidence and skills, they will begin to write short sentences. In the same way, reading passages gradually become longer throughout the book, so that students develop their abilities.

Encourage children to understand how writing, drawing, painting and creating things help us to communicate in our everyday lives. Create a rich and inviting environment in your classroom, with posters and classroom signs decorating the walls.

Teaching phonics

The teaching of phonics plays an important role in developing literacy. An awareness of phonics facilitates the students' ability to discriminate between similar sounds and so develops their listening skills. In addition, learning language through phonics has been shown to develop students' spelling and consequently their writing skills, too.

Connect Plus Primary 1 introduces students to the basic sounds of the language through a phonic approach. The students are presented with simple consonant and vowel clusters, to build upon their knowledge of the phonic sounds of each of the letters of the alphabet. They identify the sounds in different words through lively listening activities, and then blend the letters and digraphs to spell simple words. They also practice blending and writing words through carefully graded activities.

Teaching CLIL

CLIL (Content and Language Integrated Learning) allows us to explore more than just the language, taking children to other spheres and areas of learning through the medium of English.

In this course, the CLIL area is closely related to the theme of the unit and story content, in which areas such as Math, Art, Science and Social Studies are covered. The material included is engaging, age-appropriate and opens the door to new areas of learning around a topic. In some cases, a whole lesson is based on a related CLIL topic, and in other cases, the other topic forms a part of the lesson.

Teaching Life skills

Children in Primary 1 are learning many new skills. These include a wide variety of essential skills. The curriculum framework divides Life skills into four learning dimensions:

- Coexistence skills – participation, empathy and respect of diversity. In *Connect Plus Primary 1*, skills introduced for this dimension include participation (helping others), and respect of diversity.
- Self skills – self-management, accountability, communication, resilience. In *Connect Plus Primary 1*, skills introduced for this dimension include building independence and self-confidence, effective listening and assessing progress. These skills are reinforced by activities such as role-plays.
- Job skills – sharing, decision making, negotiation, productivity. In *Connect Plus Primary 1*, skills introduced for this dimension include respecting others, doing your work well and respecting rules.
- Scientific skills – critical thinking, creative thinking, problem solving. In *Connect Plus Primary 1*, skills introduced for this dimension include problem solving, sharing, and creative thinking in project and presentation tasks. Stories, puzzles, and songs promote and develop critical thinking and problem solving skills in the classroom. The aim is to make thinking fun for the children.

The methodology is underpinned by current thinking skill trends in early years education. While learning English, specific attention should be dedicated to the development of a child's ability to recall information, ask questions, make decisions, solve problems, evaluate and organize information in addition to creating their own work. Within the materials as a whole, the students actively contribute to their own cognitive development, which helps to create confident, smart early thinkers.

Teaching values

Certain values, such as kindness, cooperation and independence, are selected within the general curriculum framework to support life skills that the students must grow up knowing. These values help to create good citizens and are very important development steps for children of this age.

Students are introduced to the ideas of good coexistence values by being exposed to simple values topics set in a classroom context. They are shown common situations in school life, in the context of the story and in the form of photos and a song. Through these they are guided toward behaviors such as kindness, consideration, cooperation, politeness and respect, helpfulness and increasing independence.

Teaching issues and challenges

The curriculum framework identifies contemporary and urgent issues that are necessary at local and global levels to achieve a high quality of learning. The five major areas identified by the framework are:

- Non-discrimination issues
- Citizenship issues
- Environmental and development issues
- Health and population issues
- Issues of globalization

These issues are woven into the course where appropriate to the topic and understanding of the students. Some issues are addressed directly on the page. An example of this is the lesson about pollution in Unit 5. Other issues can be introduced by the teacher if suitable for the class. Guidance is given about this in the Teacher's Guide.

Total Physical Response (TPR)

This is a method of teaching vocabulary and concepts by using physical movement to react to the teacher's input. It is a process that can boost language learning. It is inclusive, fun and creates a sense of community in the classroom. TPR can be used as an opener at the start of the class. Simple chants with classroom instructions such as *stand up*, *sit down*, *clap your hands* and *open your books* are some of the common instructions which could be used.

TPR is also used to react to the content of songs in miming activities and guessing games.

Using craft in the classroom

Promoting craft in the classroom is an essential part of a child's development. It develops fine-motor skills and encourages children to explore their creativity and organizational skills whilst encouraging sharing and collaboration in the classroom.

The projects on this course have been selected for their appropriacy and simplicity in terms of classroom management. The materials required are easy to attain and the tasks are manageable and engaging for children of this age.

A clear, step-by-step demonstration is required from the teacher, who should monitor carefully, helping those in need before progressing to the next stage.

Craft can also be a springboard for speaking activities, classroom displays, role-plays, songs and stories.

Using the Games Bank

Games are an essential element of effective lessons for this age group. They bring many benefits, including consolidating motor skills, developing cooperative skills, practicing vocabulary and sounds, and adding variety and enjoyment to lessons. There is a suggested game at the end of each lesson, and sometimes at the start of a lesson or for fast finishers as well, and these are clearly referenced in the teaching notes.

All the games are explained in the Games bank at the end of the book. The games practice motor skills, vocabulary and phonic sounds in an enjoyable and active way. There are a variety of whole class, group and pairwork games and they can be adapted to suit the needs of any class.

Introduction

Characteristics of Young Learners

Very young children by nature are very inquisitive, active learners. For many it will be their first experience of formal education and as such they need to feel safe and comfortable in their surroundings in order to progress. Ensure that your classroom is visually appealing with children's work and posters decorating the walls. If space permits, have reading corners, role-play and construction areas in order to promote pre-reading skills and learning through play and creativity. Young children are often egocentric and tend to have very short attention spans, which impacts on our choice and the length of activities. Encourage group work and sharing and tailor your activities so they are short and varied. Children of this age also need lots of positive reinforcement and praise from their teachers, who should be friendly, fair and firm.

Techniques for teaching Young Learners

Children use imaginative play to help them make sense of the world, so as teachers we should harness this by bringing puppets and toys to the classroom. A class mascot is of great comfort to children who are reluctant to leave their family and can be used to greet and calm them in addition to explaining activities and classroom rules. A mystery bag or box with flash cards and objects inside are also valuable tools in the Young Learner's classroom and can be used to introduce new vocabulary and to capture children's attention. Children of this age learn well through doing, so ensure that all activities are meaning-focused and appropriate to their stage of development.

Ongoing assessment

It is most important for you to be aware of your students' progress throughout the year in order to stretch the more able students and keep them interested, and to encourage and give extra practice to any students who may be having difficulties.

The *Closing* activity suggested in the Teacher's Guide at the end of each lesson draws on and practices the material covered in the lesson, so students' performance can serve as an indicator of their progress. Other stations for assessment include the unit review as well as the review units.

Any common problems students are experiencing should become the focus for the next lesson. For example, if students are frequently using a wrong spelling or pronunciation, focus on this in the next lesson. Individual difficulties can be dealt with by talking to the student, or by setting individual exercises which may help to improve the student's confidence. Always talk positively to students, even about their errors, to build confidence and show that we can learn through making mistakes.

Also, be aware that the students will have different skills. Reading and writing skills are more difficult for some students to master than for others. Similarly, some shy students who are reluctant to speak may be very good at reading and writing. They should all be encouraged and praised for their efforts in every skill.

Classroom Management

Working in whole class, pairs, groups

Establishing routines in the Young Learner classroom is key to having an organized classroom and saves valuable time. Routines create a predictable pattern and once established, children begin to understand what is expected of them and how they should act. In this way we facilitate and promote meaningful learning in the classroom. Try to incorporate the following routines in your classroom:

Hello time

Greet the children in a friendly way. Sing or play a Hello song. Ask simple questions as revision, e.g. *What day is it? Is it sunny today? How old are you? What's your favorite toy?* Take the register.

Opener

Use the same format as above to present or revise new language or to sing a song from the previous lesson.

Table time

Color-code tables and ensure that when the children move from one stage of the class to another that they do it group by group and not altogether. Ensure that the tables are uncluttered with only the materials necessary for the activity to hand.

Tidy up time

Ensure that there is time at the end of the class for the children to tidy up their tables. Make sure they put away their books, crayon pots and put their chairs under the tables. Establishing a set routine for this will enable the children to become more independent as the school year progresses.

Goodbye time

Use this opportunity for the children to say goodbye to you in a calm, relaxing manner.

Classroom language

Classroom language needs to be simple, meaningful and repetitive. Children learn quickly, but forget easily. Use language that children can associate with a certain routine or activity, which is regularly used in class. Accompany the language with gestures until the children successfully learn the language. Be patient and consistent. Try to incorporate the following language into your English class routines:

Come here, everyone!

Let's sit down!

Let's be quiet!

It's time for a story!

Stand up, please.

Go to your table.

Open your books.

Close your books.

Tidy up, please.

Stand in a line.

I hope you enjoy using this innovative, new course that has been lovingly written and designed to create a memorable and purposeful language-learning experience.

Unit 1

LESSON 1 SB pages 2-3 AB pages 2-3

Objectives:	To greet others and say hello/goodbye To introduce yourself To give personal information To ask others about themselves To write one's name in English and say one's age To draw oneself
Vocabulary:	<i>my, your, Hello/Goodbye, name, how old, you</i>
Language:	<i>Hello! What's your name? My name's ... I'm How old are you? I'm seven</i>
Materials:	Student's Book pages 2 and 3 Activity Book pages 2 and 3 Class CD Soft toy(s)

Presentation

- 1 Ask all students to stand up in a circle.
- 2 Using a soft toy, throw it to a student near you.
- 3 Say *Hello. I'm* (give your name). *What's your name?* Practice this with all students and then individually. Help them to say it fluently, squashing the sounds together, so it becomes /wotsjəneim/ - this will make them sound more natural.
- 4 Once you're happy with their pronunciation, ask the question naturally for them to reply and give their name.
- 5 Help them to reply *My name's ...* and give their name.
- 6 Throw the toy to different students to reply. Encourage them to throw the toy to each other to reply.
- 7 Now continue by asking them their age. Throw the soft toy to a student and ask their name, wait for the reply, then say *How old are you?* This might cause some confused looks but just persist with different students and someone may reply, if not, ask their age in Arabic and give their reply, e.g. *I'm six* or *I'm seven*.
- 8 Continue around the room, asking students' names and ages. Check their pronunciation and give help where necessary.
- 9 Now get students into small groups of around six and give a soft toy to each group. Indicate they should continue. You can now circulate and give further help to individual students regarding pronunciation.

1 Look, listen and read

- 1 Hold up your Student's Book, open at pages 2-3, and say *Open your books*.
- 2 Ask students to look at the pictures and name any characters (Hana, Hany, Youssef, Amira).

- ☐ Students should take turns to say their age and go and stand under the correct circle.

- Hold up your Student's Book and point to Exercise 2 on page 3.
- Say *Hany* and make sure students are pointing to the correct picture. Continue with the other characters.
- Say *Listen*. Play the CD and demonstrate, pointing to each of the characters as they are introduced.
- Play the CD again, phrase by phrase, and ask students to point and repeat.
- Indicate that you would like students to introduce themselves again, using the language they have heard. Encourage them to say both *I'm ...* and *My name's ...*. If anyone asks, explain that we use both phrases to give our name. Make sure they use the contracted form *I'm* (/aɪm/) and not *I am* to sound more natural.

Audioscript

Hany: Hello! I'm Hany. I'm six years old.
Youssef: Hello! My name is Youssef. I'm seven years old.
Amira: Hello! I'm Amira. I'm six years old.
Hana: Hello! My name is Hana. I'm seven years old.
Miss Mona: Hello, children. I'm Miss Mona.

3 Read and say

- Hold up your Student's Book and point to Exercise 3 on page 3. Point to the first picture and read the speech bubble. Get students to repeat.
- Continue with the rest of the conversation, having the students repeat after each phrase.

4 Work with a friend. Ask and answer

- Now ask students to practice the conversation in Exercise 3 in pairs.
- They may find it valuable to listen to you reading the conversation again, repeating each sentence, before they work with their partner.
- Students then work in pairs to ask and answer questions. Go around and offer help and support. Make sure you check the pronunciation.
- Once students have read the conversation with their first partner they can now change places and work with someone else.
- At the end of the activity, ask some pairs to read out their conversation for the class.

5 Sing

- Ask students to say who they can see in the pictures.
- Play the song.
- Play the song again and encourage students to join in as much as they can.
- Play the song a third time—they should be more confident now.
- When the students are able to, play the version of the song without words. Students sing as much as they can.

Audioscript

Everyone: Hello, hello, hello!
Hany: Hello, I'm Hany!
Everyone: Hello, Hany!

Everyone: Hello, hello, hello!
Hana: Hello, I'm Hana!
Everyone: Hello, Hana!

Everyone: Hello, hello, hello!
Miss Mona: Hello, I'm Miss Mona!
Everyone: Hello, Miss Mona!

Extra practice

- Ask students to stand up and mingle, asking each other the two key questions from this lesson, *What's your name?* and *How old are you?* Stand back and make sure everyone is confident, chatting happily and responding in the appropriate way. Try not to intervene too much, but if students are struggling to understand each other, then help.

Unit 1

ACTIVITY BOOK

page 2

1 Look, read and trace

- 1 Hold up your Activity Book, open at pages 2 and 3, and say *Open your books.*
- 2 Ask students to look at Exercise 1 and to say what they can see in the pictures.
- 3 Point to yourself and say your name, then point to the children on the page to elicit their names from students.
- 4 Point to a student and ask his or her age to elicit *six* or *seven*. Then point to the page to elicit the characters' ages.
- 5 Still holding your book, with a pencil, pretend to trace the words which are in dots for students to trace. Indicate that students should take a pencil to trace the words in their books. Check that everyone has understood.
- 6 Now circulate and check that everyone is tracing the words. You may need to give help so that students hold their pencils correctly. If students finish quickly then encourage them to help others so that there's a helpful, cooperative atmosphere in your classroom.

2 Read, write and circle

- 1 Ask students to look at Exercise 2 and to say what they can see in the pictures.
- 2 Read the example question and elicit the answer, asking different students. Students should now write their name on the line. Some students may need your help as to how they should do this in English, so circulate and give support. It's a good idea to write a few names on the board so that students can see how they look in English – this will also help students start to understand which letters are linked to which sounds in English.
- 3 When everyone has finished, show your Activity Book to the students and indicate where they should circle the relevant number for them.
- 4 Ask a few students to read their answers.

- Say *Next we will learn more about names and ages.*
- Stand by the door to see students off. Say *Goodbye* and encourage students to say *Goodbye* to you as they leave. Remember that this is the beginning of a new term so students need to be reassured that yours is a friendly, smiley classroom where everyone is welcome and everyone's contribution is welcome.

ACTIVITY BOOK

page 3

1 Read and complete

- Ask students to look at Exercise 1 and to say what they can see in the pictures.
- Point to the unfinished phrases and look puzzled. Try to elicit from students the complete phrases.
- Write the first incomplete phrase (*Hello! My n__e is Youssef.*) on the board. Elicit from students what the first missing letter is, and write it in. Now invite a student to come to the front of the class and write in the second missing letter.
- Indicate that students should continue in their books.
- Fast finishers can compare their answers with each other.

Answers:

2 Read and match

- Point to Miss Mona and Hany and elicit their names.
- Say *Hello* to a student and hopefully they will respond with *Hello*. Take your Activity Book and indicate with your pencil that students should draw a line between matching phrases. Ask them to do this for the other two exchanges.

Unit 1

LESSON 2 SB page 4 AB page 4

Objectives: To give one's name and age
To give another person's name and age
To indicate possession with possessive pronouns my, his and her
To use subject pronouns I, she and he
To use the present simple *to be* with I, she and he
To circle key words

Vocabulary: *My / His / Her name is ... / I'm / He's / She's ...*

Language: *My / His / Her*
I'm / He's / She's

Materials: Student's Book page 4
Activity Book page 4
Class CD
Optional: pictures of people (male and female) from newspapers or magazines

Opener

- Ask students to stand in a circle, as per last class, throw the soft toy to a student, then ask the student his/her name and age. They should do the same, throwing the soft toy to different children in the circle to prompt them to speak. Make sure everyone has a turn to speak.

Presentation

- While still standing in the circle, say *My name is ... and I'm ...*. Then point to a girl near you and say *Her name is ... She's ...*. Practice the pronunciation chorally and individually, then continue with other girls in the circle, eliciting the answer for each girl. This is not only a fun activity but works very nicely in helping students to remember each other's names and ages.
- Now turn to a boy in the circle near you and say *His name is ... He's ...*. Once again, practice pronunciation chorally and individually, then continue with other boys in the circle, eliciting the answer for each boy.
- With regard to pronunciation, make sure that you give students help in running the words together to make the phrases sound natural, e.g. check that students are saying /hi:z/ for *he's* and /fi:z/ for *she's*. Another important point is to check that students are differentiating between *he's* (/hi:z/) and *his* (/hɪz/) – some students find this difference tricky and you may need to pay special attention to it.
- Once you feel that students feel confident about producing this language, indicate that everyone should sit down.

Language use

1 Read and say

2 Look. Point and say

Language: *My / His / Her name is ...*

STUDENT'S BOOK

page 4

1 Read and say

- Help students to find page 4.
- Point to the pictures, say the phrases and have students repeat.

Extra practice

- Write *he* on one side of the board in very large letters and *she* on the other side. Invite one girl to come up and say *He or she?* Elicit *she* and ask the student to go to the *she* side of the board. Continue in the same manner with other students until everyone is standing up at the board under the correct pronoun. If you teach at a boys' school or a girls' school, you can do this activity by giving students pictures of people from newspapers or magazines and sorting those pictures instead.
- While everyone is standing at the board in their respective place, quickly check *his* and *her* by saying the words and asking which side is correct for each. Help students come up with the correct answer. You could then ask students individually, *she or he?*, *his or her?*
- While students are still standing, reinforce the new language further by asking key questions such as *What's her name?*; *What's his name?*; *How old is she/he?* about other students (or the pictures they are holding) to elicit the correct answers. Indicate that students should ask the questions to each other too, and this can be done in small groups.
- Now ask students to go back to their seats.

Language use

1 Read and match

a His name is Omar. He's 5.

b Her name is Salma. She's 8.

c My name is Farid. I'm 6.

2 Look and circle

1 His / Her name is Rofaida.
He's / She's 7.

2 His / Her name is Nader.
He's / She's 6.

3 My / Her name is Reem.
I'm / She's 8.

2 Look. Point and say

- 1 Ask students to say what they can see in the pictures.
- 2 Ask what the boy's name and age are and elicit the answers.
- 3 Ask what the girl's name and age are and elicit the answers.

3 Now write

- 1 Now, ask the students to complete the sentences.
- 2 Check their answers as a class. Once answers are checked, ask students to read the phrases again, as a class and individually, so that you can monitor their pronunciation.

Answers:

His name is Wael. He's 7.
Her name is Lara. She's 6.

Fast finishers

- Draw a table on the board with 2 columns, one with a picture of a boy at the top of the column, and one with a picture of a girl.
- Ask students to copy the table into their notebooks, and then write the names of all the girls in the class in the 'girl' column and all the boys' names in their column. This should work well as students may not know each other well, so it's good to find out everyone's names. Furthermore, they may know how to write each other's names in Arabic, but not necessarily in English, so this exercise will hopefully provide an insight into the connection between letters and sounds in English, and how they link to Arabic. If your class is all boys or all girls, you can ask students to write names of family members and friends.

ACTIVITY BOOK

1 Read and match

- 1 Help students to find page 4 of their Activity Book.
- 2 Ask students to look at Exercise 1 and to say what they can see in the pictures.
- 3 Read the words in the panel at the top. Explain that you would like them to match the pictures with the phrases. Read the example and check they understand the task.
- 4 Students match the pictures to the phrases. They can work individually or in pairs.
- 5 Check their answers as a class.

Answers:

2 Look and circle

- 1 Read the example question and elicit the example answer.
- 2 Students then work in pairs to circle the correct words.
- 3 Check their answers as a class.
- 4 Once again, take this opportunity to have students reading the sentences and practicing their pronunciation.

Answers:

1 She's

2 His, He's

3 My, I'm

Closing

- Ask students to tell you some of the other students' names and ages.
- Explain that in the next lesson, they will describe people.

Unit 1

LESSON 3 SB page 5 AB page 5

- Objectives:** To describe other people and yourself
To listen to and identify physical features
To circle key vocabulary
To read and color physical features
- Vocabulary:** *brown, green, blue eyes; glasses, long/short/curly/straight/black/blond/red hair*
- Language:** *I have (brown) hair and (blue) eyes.*
- Life skills:** Respect for diversity
- Materials:** Student's Book page 5
Activity Book page 5
Flash cards: long hair, short hair, curly hair, straight hair, black hair, blond hair, red hair, brown eyes, green eyes, blue eyes, glasses
Colored board pens or chalks
Colored pencils for students to color

Opener

- Revise language from last class by saying *Hello* and asking students' names and ages. Consolidate this by asking students about each other's names and ages.

Presentation

- Hold up the flash cards of different hair and eyes, then present by saying, e.g. *brown hair, blond hair, straight hair, curly hair, brown eyes, blue eyes, green eyes*; point to the flash card with glasses and say *glasses*. Practice all vocabulary chorally and individually.
- When you have finished, get students into small groups and give each group a few cards so they can continue practicing the pronunciation.
- Swap around the cards so different groups check a range of vocabulary. It's very nice to come back into whole class at the end of an activity such as this, for a final consolidation of vocabulary and pronunciation.

STUDENT'S BOOK

page 5

1 Listen, read and say

- Ask students to open their books at page 5. Students should then look at the pictures.
- Play the CD and pause after each phrase for students to repeat.
- Students now work in pairs to continue pointing and saying.

3 What about you? Tell a friend

- 1 Look at the items in Exercise 2 again with students and ask them about themselves. Once one or two students have described themselves to the class, ask them to continue in pairs.

Fast finishers

- Ask these students to write two sentences about themselves, using the items in Exercise 2 as a model.

Practice game

- Play *Guess the picture* (Games bank, page 209) using the items from the Student's Book. You begin by drawing something on the board, e.g. green eyes, and students have to guess. The first student to guess correctly comes up to the board and draws something else from the lesson for the others to guess. Guide students so that they always produce something from the lesson so the others have a chance of guessing what it is.

ACTIVITY BOOK

page 5

1 Read and color

- 1 Help students to find page 5 of their Activity Book. Check they have coloring pencils on their desks for this exercise.
- 2 Ask students to look at Exercise 1 and to say what they can see in the pictures.
- 3 Look at the example together and check understanding. Then color the eyes and hair together. Ask students to do the same.
- 4 Students color the other pictures.
- 5 Check their answers as a class. Once answers are checked, ask students to read the phrases again, as a class and individually, so that you can monitor their pronunciation.

2 Read and match

- 1 Ask a student to read the first phrase, then with your pencil on the book, elicit from students where it should go.
- 2 Students then continue in pairs to match the other items.
- 3 Check their answers as a class.

Answers:

- 1-c
- 2-d
- 3-b
- 4-a

Closing

- Finish off the lesson by describing some of the students with simple phrases, e.g. *black hair and brown eyes*, then ask students to say the name of the student you're describing.
- As a class, students can then continue describing each other, one at a time, and then other students say the name of the student being described. Bear in mind that there might be more than one possible student who fits the description, but this adds to the fun!
- Say that in the next lesson, they are going to describe people in more detail.

Unit 1

LESSON 4 SB page 6 AB page 6

- Objectives:**
- To identify describe oneself and others using full sentences
 - To use present simple of the verb *have* to describe oneself and others
 - To listen to and identify a correct description
 - To identify personal pronouns
 - To identify correct verb forms
 - To complete sentences
 - To color according to a description

Language: *I have brown hair. She has green eyes.*

Materials: Student's Book page 6
Activity Book page 6
Colored pencils for students to color
Optional: pictures of a variety of people (1 per student)

Opener

- Play *Mime it* (Games bank, page 209) with some of the items from page 5: *green eyes, black hair, glasses*. Students sit in a circle and if the phrase relates to them (or, if you prefer, to a picture of a person that you give them) then they have to move. So you say, for example, *brown hair* and everyone with brown hair moves. However, each time students move, one chair is removed from the circle, so the person who fails to find a seat when they move has to leave the game. Continue until there's one person left, then they are declared the winner.

Presentation

- Stand in front of students so they can all see you. Then use phrases to describe yourself, e.g. *I have blond hair. I have green eyes*. Say the phrases clearly so that students can repeat easily.
- Now indicate to a confident student and gesture that he/she should say two phrases about themselves. Help them to produce their phrases, checking understanding of vocabulary and pronunciation.
- Continue with a number of students, then ask them to work in small groups to repeat and check with each other. At the end, they could mingle and move around the classroom, describing themselves.
- Bring everyone back to plenary, with students facing the front. Invite a girl to come to the front and describe her, e.g. *She has straight hair. She has blue eyes*. Practice pronunciation chorally and individually. Then invite a boy to come to the front and give two phrases about him, e.g. *He has curly hair. He has black eyes*. Practice pronunciation chorally and individually. Ask students to once again work in small groups and describe each other. Circulate and monitor, checking vocabulary and pronunciation.

Language use

1 Listen, read and say

1

I have brown hair.
I have blue eyes.

2

She has straight hair.
She has green eyes.

3

STUDENT'S BOOK

page 6

1 Listen, read and say

- Help students to find page 6.
- Ask students to look at the pictures: *Look! What can you see?* Elicit any vocabulary students can produce, relating to the pictures.
- Now read the sentences with the students and ask them to repeat. Check pronunciation.
- Play each sentence on the CD and have students repeat. Check pronunciation once again.
- As a final activity, students can read the sentences to each other.

- Explain that they should match the description with the pictures.
- Ask them to work in pairs to complete the task.
- Circulate and monitor to give students help, as necessary.
- Check answers and ask students to read descriptions to check pronunciation.

Answers:

Reading and speaking

Unit 1

1 Look, read and match. Say the name

- 1 He has black hair and blue eyes. He wears glasses. He's 6.
- 2 She has curly hair and green eyes. She's 6.
- 3 He has brown hair and blue eyes. He's 7 years old.
- 4 She has black hair and brown eyes. She has glasses. She's 7.

2 Talk to your shoulder partner

Dalia and I are alike. We have brown hair.

2 Talk to your shoulder partner

- Choose a confident student. Ask him or her to stand up.
- Tell the student what you look like, for example *I have black hair and brown eyes*. Encourage the student to tell you what he/she looks like.
- Point out any similarities between you and the student, for example *We both have brown eyes*. Thank the student for his/her help.
- Point to the example in the book and read the sentences with the class.
- Explain that the students should work in pairs to discuss what they look like and try to find any similarities with their friends. Make sure you are clear that it is fine if they look similar or different – they are all beautiful in different ways!
- Monitor as they work and help as necessary.
- Ask a few confident pairs to show their conversations to the class.

Extra practice

- Describe two or three students from the class, and add in their age. Students have to guess who it is by saying their name. Students can then continue, one at a time, giving a description of another student for their classmates to guess who it is.

Reading and writing

Unit 1

1 Look, read and color

2 Look again, then read and complete

brown blue ~~black~~ green red ~~six~~ seven

- 1 He has black hair and brown eyes. He's six.
- 2 She has _____ hair and _____ eyes. She's seven.
- 3 He has black hair and _____ eyes. He's _____.
- 4 She has _____ hair and brown eyes. She's six.

3 Match

- 1 Her name's Laila.
- 2 His name's Mahmoud.
- 3 He's 7.
- 4 She's 6.
- 5 She has long hair.
- 6 He has short hair.

7

Answers:

- 2 brown, green
- 3 blue, seven
- 4 red

3 Match

- 1 Explain the task. Students are going to draw a line from the sentences to either the boy or the girl.
- 2 Go around the classroom and check they are doing this well. Encourage them to describe the pictures.
- 3 Check the answers at the end. Ask students to read out their answers to check pronunciation.

Answers:

2, 3, 6 –

4, 5 –

Extra practice

- For a final energizing activity at the end of class, do the following: draw a big picture of a boy of around six on one side of the board, and a big picture of girl of the same age on the other. Under the boy write *Zyad* and under the girl write *Gameela*. Then give students white paper. They should cut or tear it in half and on one side write *Zyad* and on the other *Gameela*. You will then say sentences and students should hold up either *Zyad* or *Gameela*. Say some pre-prepared sentences such as *She's 6*, *He's got brown eyes*, *She's got curly hair*, etc. and watch as the papers go up. Do this at a fast pace so students have to react quickly and are energized. Watch to see if the correct name goes up and if there are any students struggling – this will help identify if you need to give some remedial help in the next class.

Closing

- Remind students of what they have learned so far.
- Say *Next we will practice our speaking*.

ACTIVITY BOOK

page 7

1 Look, read and color

- 1 Help students to find page 7 of their Activity Book. Make sure they all have colored pencils for the activity.
- 2 Ask students to look at the first picture and help students' understanding.
- 3 Check they understand they need to use the color in the label for their pictures.
- 4 Now ask students to complete the task. Go around the classroom and monitor as they are working.
- 5 Check their answers as a class. Students show their pictures to each other.

2 Look again, then read and complete

- 1 Ask students to look again at the pictures in Exercise 1.
- 2 Show them, using your pencil, where they should complete the information in the sentences, by looking at the pictures and checking the words in the word pool above.
- 3 Ask students to work in pairs to complete all the sentences.
- 4 Circulate, helping with vocabulary and handwriting skills.
- 5 Check all answers with the class. Ask students to read out their answers to check pronunciation.

Unit 1

LESSON 6 SB page 8 AB page 8

- Objectives:** To describe different people
To identify facial features
- Vocabulary:** *blond/black/brown hair; green/brown eyes; glasses*
- Language:** *She has (blond hair and green eyes).
It's number (7)!*
- Materials:** Student's Book page 8
Activity Book page 8
Flash cards: long hair, short hair, curly hair, straight hair, black hair, blond hair, red hair, brown eyes, green eyes, blue eyes, glasses
White paper and colored pencils

Opener

- Play *Point to it* (Games bank, page 210) with the physical features. Stick the flash cards to the board, then say, e.g. *green eyes*, and a student has to come to the board, take the correct card and give it to you. They then take a turn leading, i.e. describing a facial feature, and another student comes out to the board to take the card and give it to them. If they're correct, they then become 'leader' and the other student sits down. Continue until the pace starts to drop, then bring the activity to a close.

STUDENT'S BOOK

page 8

1 Who is it? Look and play

- 1 Help students to find page 8.
- 2 Ask them to describe some of the pictures on the page.
- 3 They now work in pairs: one student describes one of the people on the page and the other gives the number.
- 4 Circulate and help with vocabulary and pronunciation, as necessary.

Extra practice

- Give out white paper and colored pencils. Have students working with a new partner. Tell them that one person will describe and the other will draw on the white paper. However the one who is drawing should hide their paper from their partner so they only see at the end. They should then show the drawing and see if it's correct; the pair now swaps roles so that the other person describes and the other one draws.

2 Now talk about the people in Exercise 1

- 1 Ask students to work in pairs.
- 2 They should show their partner their Activity Book Exercise 1, then read the sentence. The partner should then point to the correct picture.
- 3 Circulate and check they are doing the activity correctly.

Closing

- Remind students of what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say *We can describe people.*
- Say *Next we will learn a new phonics sound.*

1 Read and complete, then color

- 1 Help students to find page 8 of their Activity Book. Make sure they have a set of colored pencils.
- 2 Show them the four head-and-shoulder outlines to be colored in. They should now color in the shapes using colors from those in the word pool.
- 3 Circulate and check that everyone has understood what they should do, and they're using a variety of colors to color in their heads. Point out that they should not simply copy their partner.
- 4 When they have finished coloring, they should complete their sentences so they fit with the way the pictures have been completed.
- 5 Circulate and help with vocabulary, spelling and handwriting.

Flash cards: long hair, short hair, curly hair, straight hair, black hair, blond hair, red hair, brown eyes, green eyes, blue eyes, glasses
Phonics cards: pen, bag, bus, pan, boy, pencil

Opener

- Play a version of *Guess the picture* (Games bank, page 209). Use the flash cards or draw a very simple picture on the board of a girl or boy's face, with a specific hair and eye color, glasses, age badge, etc. Then put students into 2 teams and invite the teams to come up with the best description. Point out all elements of the picture should be in place. Award points, then do another drawing for them to describe. Continue until the pace starts to drop.

Presentation

- Show the flash cards with the following sounds on: *pen, bag, bus, pan, boy, pencil*. Use them to get students to produce the target sounds /p/ and /b/. Help students to articulate the sounds and watch to see if anyone is having difficulties, if they are, offer help.

3 Trace and say

- Point to the pictures and exploit their content with students.
- Read sentences aloud for students to repeat, then they can repeat individually.
- Using your pencil and holding up your book, show students how to trace out the letters with their pencils.

- Play *Catch and say* (Games bank, page 208) with different physical features from previous lessons, e.g. green eyes, glasses, brown hair, blond hair, etc. You may want to brainstorm some of these on the board before the game starts.

Presentation

- Use the flash cards to present the new language.
- Stand at the front of the class and make sure all students are paying attention and can see the flash cards.
- Show a flash card and say the word loudly and clearly. Have students repeat chorally and individually.

Materials: Student's Book page 12
Activity Book page 12
Class CD
Flash cards: baby, child, teenager, adult, elderly person

Opener

- Review the words from last class by showing the flash cards.
- You could stick these on the board, and say the age of the person; students then point to the correct picture, or come up to the board to take the correct flash card to give you.
- You could also quickly check their spelling by putting anagrams of the words for students to unscramble, e.g. yabb (baby), dcilh (child), rtaenege (teenager), etc.

Presentation

- Mime some instances of being rude to other people, e.g. show a shouty angry face, point at someone in a rude way, push a student slightly to show being rude, demonstrate not sharing your book with someone who's forgotten to bring theirs by putting your arm around your book so they can't see, etc.
- Explain that in today's lesson, students are going to learn how to be kind and considerate to others.
- Discuss why it's a good thing to be kind, unselfish and helpful in the classroom and in life.

Extra practice

- Play the game *Teacher says (1)* (Games bank, page 211). Use the phrases from the song above, but also simple classroom phrases such as *Stand up, Sit down, Touch your book, Take your red pencil*, etc. This game is not only fun and useful, requiring a lot of careful listening and concentration, but it also acts as an energizer, to get the students on their feet and moving around. This is vital on a warm day when students may be getting a bit sleepy. If time allows, students could continue the game for a while in small groups.

3 Look and draw 😊 or ☹️

- 1 Ask students to look at the pictures.
- 2 You could discuss how the people in the pictures feel.
- 3 Ask students to draw smiley or sad faces for the pictures.

- 4 Circulate and check students are on task. Discuss how the people in the pictures are feeling with individual students – sometimes some students prefer not to take part in class discussions and like to talk to you about these issues on their own.

- 4 Circulate as they work and check they are doing this well. Give help as necessary.

Closing

- Ask students to act out one of the little scenes in the Activity Book in small groups. Make it clear the scene is mainly about kind body language, e.g. waving, shaking hands, smiling, and including people in games, so just a few words should be included.
- Circulate and help. When students are ready, ask a few groups to present their scenes to the class.
- Say *Now you know how to help your friends. Next we will look at more things we can do in the classroom.*

Extra activity

- Students are now well versed in responding to commands, but now they should produce the commands. Begin by doing actions at the front of class and indicate to students that they should come up with the language for what you are doing. You can open/close books, stand up, sit down, write on the board, wave and shake hands. Each time you do an action, elicit the language from students. If time allows, students could then continue in pairs.

Unit 2

LESSON 1 SB pages 16-17 AB pages 16-17

Objectives:	To introduce one's family To listen to and repeat key vocabulary To write key vocabulary
Vocabulary:	<i>mom, dad, brother, sister, grandma, grandpa</i>
Language:	<i>This is my mom. I have a brother. His name is ... She's a baby. Who's this? This is ...</i>
Materials:	Student's Book pages 16 and 17 Activity Book pages 16 and 17 Class CD Flash cards: mom, dad, brother, sister, grandma, grandpa

Opener

- Play *Look and draw* (Games bank, page 209) to revise some facial features from Unit 1 (blue eyes, brown hair, glasses, curly hair, etc).

Presentation

- Use the flash cards to present the family words *mom, dad, brother, sister, grandma, grandpa*.
- Stand in front of the class and say each word slowly and carefully so students can see your full articulation.
- Have students repeat. As they become more confident, say the words more quickly so that students can pick up on all sounds and word stress.
- Have students repeat chorally and individually.
- The sound /ð/ in *brother* may prove tricky so check this. It's also useful to show that we say *grandma* and *grandpa* without saying the 'd' sound because it gets 'swallowed'. It is good to pronounce these words naturally so students can copy your pronunciation.

STUDENT'S BOOK

page 16

1 Look, listen and read

- Help students to find pages 16 and 17.
- Ask the students to say what they can see in the pictures. Try to introduce the new vocabulary from the flash cards by pointing to the different characters.

I love my family.

- Explain that you are going to play the CD and ask students to follow in their books as they listen. Play the CD and point to the characters as they speak.
- Say *Look, listen and say*. Students follow the CD again, sentence by sentence. Ask students to repeat the sentences and point to the character who is speaking each time.
- Ask a few simple questions like *Who is this? What's her name? What's his name?* to prompt real comprehension.

Audioscript

Amira: *This is my mom.

1 Read and match

- 1 Help students to find page 16 in the Activity Book.
- 2 Elicit information about the pictures by asking questions such as *What's his name?*, *Who's this?*, etc. If you'd like to revise vocabulary from Unit 1 you could point to the baby and say *Baby or child?* and to the child and say *Child or adult?*, to prompt answers and then check pronunciation.

- 4 Circulate and check everyone's on task. Give help with holding pencils to do the exercise, if necessary.
- 5 Check their answers as a class. Read the sentences aloud for students to repeat.

ACTIVITY BOOK

page 17

1 Look at the family on page 16. Match and say

- 1 Help students to find Activity Book page 17.
- 2 Have them read out the words in the exercise. Check pronunciation chorally and individually.
- 3 Then show them, while holding up your Activity Book, that they should connect the words to the pictures with a line, using their pencil.
- 4 Circulate and check everyone's understood correctly. Give help as necessary.
- 5 Check their answers as a class.
- 6 At the end have a further impromptu check by pointing to the pictures in your Activity Book and having students say the words.

Answers:

- 1- mom
- 2- dad
- 3- grandma
- 4- grandpa
- 5- sister
- 6- brother

Extra practice

- If you want to take the focus away from the Activity Books for a moment, then you could have some fun with anagrams with students on the board. Write up some of the target vocabulary with the letters in jumbled order – students then have to guess what the words are, e.g. mmo (mom), tborerh (brother), mgaradn (grandma), etc. This kind of activity works well as it a) takes the focus away from the book, b) reactivates the key vocabulary and c) focuses a little on spelling, which is helpful and sometimes neglected. It also leads quite nicely into the exercise below, which also focuses on spelling as it looks at missing letters in the words.

2 Look and read

- 1 Point to the picture in Exercise 2.
- 2 Ask *Who's this?* and elicit *Grandpa*.
- 3 Read the two speech bubbles with the class.

3 Look and trace

- 1 Point to Exercise 3 and elicit who is in the pictures.
- 2 Now ask students to go to complete the sentences, tracing the words.
- 3 Circulate and check everyone is on task.
- 4 Check their answers as a class. You can also airwrite the words with the class to reinforce how to form the letters correctly.

Closing

- Draw your family tree on the board, showing your parents and any brothers and sisters. Make sure students understand this is a family tree. Students will be fascinated to learn something more about you. Ask *Who's this?* for each person, or you could ask *Who's Ahmed?* for students to answer *He's your brother, etc.*
- Say *Good, you can now talk about your family.*
- Explain that in the next lesson, they will talk more about their family.

Unit 2

LESSON 2 SB page 18 AB page 18

- Objectives:** To talk about one's family in more detail
To simply ask and answer about family
To listen to and repeat a short dialog about siblings
- Vocabulary:** brother/sister, name, his/her
- Language:** Do you have a sister? Yes, I do/No, I don't.
What's his/her name? His/Her name's ...
- Materials:** Student's Book page 18
Activity Book page 18
Class CD
Flash cards: rainy, windy, sunny, hot, cold, cloudy

Opener

- Revise family words from the previous lesson using the flash cards.
- You could also write up your family tree once again, and exploit all the vocabulary and family members' names. It's a nice personal reference and students relate well to these kinds of activities.

Presentation

- From your family tree you can direct questions at different students, to serve as an introduction to the language in this lesson: Ask *Do you have a sister?* and see how the student responds. If they say *Yes* then prompt them to say *Yes, I do*; if they say *No* then prompt them to say *No, I don't*.
- Ask a different student *Do you have a brother?* and elicit the same responses. Check pronunciation chorally and individually, making sure students are using word and sentence stress correctly.
- Introduce the questions *What's his name?* or *What's her name?* as follow-up questions, and show interest in the answers.
- Now, ask students to stand up and mingle, asking each other the questions and giving the answers. Mingle yourself and help with pronunciation, if necessary, but if possible, try to stand back and just listen, so that students can get on with communicating with each other. Make a note of any particular areas you may need to work on with the class later, but give lots of praise to make sure they feel motivated.

What's her name? Her name is Laila.
Do you have a brother? No, I don't.

2 Listen and match

3 Now ask and answer

What's his name? His name is Ali.

Language: Do you have a (sister)? Yes, I do. / No, I don't.
What's his/her name? His/Her name is ...

- Ask students to listen to the CD.
- Play the CD again. Students listen and repeat.
- Ask students *What is his sister's name?*
- Allow students time to now practice this dialog in pairs. Circulate and help with pronunciation, if necessary. Once students have read it together a few times it's sometimes fun to play the audio and have them try and read at the same pace as the audio, so they're speaking at the same time, in chorus. This is fun, because everyone usually starts laughing, and also gives students an awareness of how quickly they should speak to sound natural.
- If you have time, you might like to ask a few pairs of students to present their dialogs to the class.

Audioscript

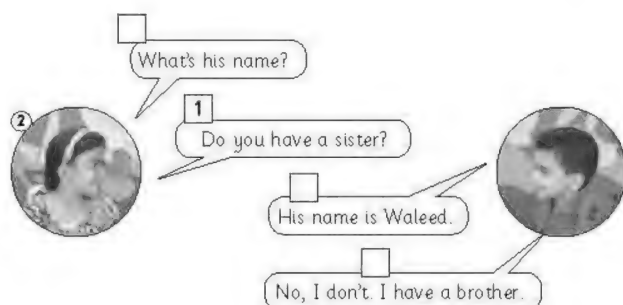

- Boy 1: Do you have a sister?
Boy 2: Yes, I do.
Boy 1: What's her name?
Boy 2: Her name is Laila.

- Choose a student and ask them to point to the correct matching picture in their Student's Book, then show the class which one is being referred to. Check if the others agree and play the first sentence again. Check if it's correct.
- Now ask students to continue, working in pairs. Play the other items, one by one, then let them check in pairs.
- At the end, play all the items again. Check the answers as a class.

- Help students to find page 18 in the Activity Book.
- This is the students' first ordering exercise in the book, so they may well need help.
- You could demonstrate what to do by putting up a very simple dialog on the board, with the lines in the wrong order; slowly add numbers to the beginning of the lines to show what the correct order should be. Then have students say the dialog in the correct order with natural intonation.
- Now show students they have something similar in the Activity Book and ask them to insert the numbers.
- Circulate and check everyone's on task.
- Check answers with students at the end, and have them say the dialog in pairs.

- Ask students a few additional questions, e.g. *Is Nesma's brother young or old? Is her sister a teenager? Does her grandpa have red hair?*, etc.

2 Read again and color

- Go back to the pictures in Exercise 1. Make sure all students have coloring pencils.
- Show students they should now take their pencils and color, but they need to do so according to the descriptions.
- Hold up your Activity Book and ask *Is mom's hair red?* Encourage students to read the description and say *No, brown.*
- Tell students to continue on their own, coloring in the people according to the descriptions.
- Circulate and monitor.
- Check answers by quickly moving around the class to make sure everyone has colored the pictures correctly.

3 Point and say

- Ask students to work in pairs.
- Say that one should give a description and the other should point to the relevant person.
- You could quickly demonstrate this by drawing 2 or 3 simple heads (male and female) on the board with different colored hair, then write numbers under them for easy checking. Say, e.g. *He has black hair.* Students should then raise their hands and give the correct number. Continue until you feel students are confident with the language.
- Now have students continue working in pairs.

Extra practice

- If time allows, you could do the following extra practice: give out white paper and tell students to copy one of the pictures from Exercise 1 onto the sheet, with all the correct colors in place. You should give them a letter, a to f, to indicate which picture they should copy.
- While they are doing this, quickly write the matching sentences on separate slips, with enough for all the students in the class.
- When everyone is ready, tell them to stand up with their pictures, which they should not show to anyone. Now give everyone a slip of paper with a description on, which should also remain hidden from the others.
- Check everyone can read the sentences on their slips. If they have a sentence that matches with their picture then swap the sentence for a different one.
- The aim is to find a student who has a matching sentence for your picture. Students should then mingle, reading or saying their sentences. The other student should listen and if their picture matches the description, they give the picture to the description-giver.
- The game continues until everyone has matched their sentences and pictures.

Closing

- Remind students how well they have done. Show them their colored pictures and tell them they can now describe different people and talk about their families.
- Explain that in the next lesson, they will learn about a new phonics sound.

To listen and order
To read and complete

Values: Cooperation: helping at home/ helping around the house

Presentation

- Make sure you have students' full attention.
- Mime some actions at the front of the class, e.g. tidying your desk, wiping your cupboard, cleaning the board, making your bed (obviously there's no bed so you will need to add a dramatic twist here!)
- Elicit what you are doing and present the new language *tidy, make my bed* and *help*.
- Check students' pronunciation and practice chorally and individually.
- Now ask them to stand up and mime the actions as you say them, e.g. tidy your desk, make your bed, tidy your bag, etc.
- Do the actions one last time yourself and check vocabulary and pronunciation.

I play with my brother. I tidy my toys at the end of the day.

Extra practice

- Ask students how else they help at home. They may struggle to say this in English and will need you to translate, but it is an important discussion to have.
- Common household chores for children of their age might be: setting the table, taking the trash out, recycling the trash, helping prepare food, etc.

ACTIVITY BOOK

1 Look and match. Draw lines

- Help students to find page 25 of their Activity Book. Ask students to match the phrases with the pictures. Students can do this in pairs.

Closing

- Play *Teacher says* (Games bank, page 211) to revise miming different household jobs. Take this in with some other more basic commands such as *Stand up, Sit down, Look at the board, Write your name on the board with your finger, etc.*
- Remind students that they can talk about helping around the house in English.
- Tell them that in the next lesson they will talk about big and small families.

Unit 2

LESSON 10 SB page 26 AB page 26

Objectives: To describe different-sized families
To talk about family members
To use numbers with plurals
To use first and third person of the verb to have, both affirmative and negative

Vocabulary: *family, small, big, love, fun*

Life skills: Critical thinking: similarities and differences: big families

Language: *I have three sisters and two brothers.
I have a brother. I don't have a sister.
He has a sister. He doesn't have a brother.*

Materials: Student's Book page 26
Activity Book page 26
Flash cards: big/small
Optional: pictures of big and small families (there should be a good mixture of both) from around the world

Opener

- Play *Mime it* (Games bank, page 209) with some of the actions from last lesson, e.g. tidying the house, making your bed, helping make food. Make it fun!

Presentation

- 1 Use the flash cards to present *big* and *small*.
- 2 If you have pictures of different sized families, show them to the class. These are easy to find on the internet and will be tremendously useful for revising all the family words students now know, i.e. brother, sister, mom, dad, grandma, grandpa, aunt, uncle, cousins. Make sure you choose pictures which show the people and not too much other detail so that students can see these, even from the back of the class.
- 3 Put the students in groups of 4 and give them a picture – say they should prepare a description of it to give to the class. They should speak as if they're a child in the photo and say, e.g. *My family is big, I have two sisters and four brothers; this is my mom and dad, etc.*
- 4 Give each group a few minutes to stand up and talk about their picture while the others listen.
- 5 Explain that they are now going to talk about big and small families.

Big families and small families

1 Look and read

My family is **big**: I have two sisters and one brother. I love my family!

My family is **small**. I don't have a brother or a sister. I have fun with my mom and dad.

2 Do you have a big family or a small family? Draw, write and say

big small

I have a family. I have

- 2 Ask them to say what they can see in the pictures.
- 3 Read the sentences with students and check meaning. Check understanding of *love*, *have fun* and *don't have*.
- 4 Say *small* and have students point to the correct picture.
- 5 Have students read the sentences aloud and check pronunciation.

Extra practice

- ❑ Now bring out your family pictures again. Write *big* on one side of the board and *small* on the other.
- ❑ To check understanding, hold up the family pictures one by one and elicit *big* or *small* from students. Then stick the family pictures up on the correct side of the board.
- ❑ If you have time and would like to exploit the pictures further, you could quickly write a number under each, then give a description of the picture, e.g. *My family is big. I have six sisters and one brother. I have a grandma ...* Students should put up their hands when they can identify the picture and give the correct number.
- ❑ If you feel it would work well, then have the student give the description for the other students to number the picture, and so on. If you think this would be a bit too challenging, then continue giving the descriptions yourself until all the pictures are used up.

Big families and small families

1 Look, read and match

a My family is small. I have a brother. I don't have a sister.

b My family is big. I have two brothers and two sisters.

c My family is small. I don't have a brother or a sister.

d My family is big. I have four sisters. I don't have a brother.

2 Look and circle

Samy has a **big / small** family.
He has three **sisters / brothers**.
He doesn't have a **sister / brother**.

26

2 Do you have a big family or a small family? Draw, write and say

- 1 Explain that students are now going to draw their own family.
- 2 You may need to give them guidance on how many family members to draw, e.g. just nuclear family or include grandparents too? They may want to, particularly if grandparents live with them.
- 3 Circulate and check everyone's on task.
- 4 When everyone's finished, have them complete the text.

Unit 2

LESSON 11 SB page 27 AB page 27

Objectives: To use comparatives with one-syllable adjectives
To compare family members to each other
To compare oneself to others
To complete and write sentences giving comparatives

CLIL: Math: comparing things

Vocabulary: shorter/taller/younger/older than ...

Life skills: Critical thinking: observation: comparing things

Language: Tarek is younger than Talia.

Materials: Student's Book page 27
Activity Book page 27
Flash cards: short, tall, young, old
Family pictures from last class

Opener

- Play a version of *Point to it* (Games bank, page 210) with the flash cards. Stick the family pictures from last class on the board with numbers underneath. Describe a family then students put up their hands and point to the correct family card.
- Play *Stand up if ...* (Games bank, page 210) to revise family phrases from last class. Tell students to sit in their chairs but to pull them back a little from their desks. When you say a phrase that's true for them, they should stand up. Say phrases like *My family is big, I have two brothers. I don't have sisters., I have three cousins*, etc. You could also add with some more language from earlier in the book, e.g. *I have black hair, I have brown eyes*, etc. As the game continues you could invite students, one by one, to come to the front of the class and say a phrase for the others to react to. Continue until the pace starts to drop.

Presentation

- Show students the flash cards for *short/tall/young/old*.
- Elicit the language, then start to compare the different pictures, e.g. show the tall and short pictures and give the people names, then say *A is shorter than B, B is taller than A*, etc. After each sentence check meaning and practice pronunciation chorally and individually.
- Give further practice of this new vocabulary by using your family cards if the details are clear enough to all students. If this is tricky invite students to come and stand near you at the front, or sit on the floor near you if the floor's clean enough for this and there's enough space. Now, work

- Tell students to work in pairs and do the same thing with the words in this exercise.
- Check their answers as a class.

Answers:

1 Look at the family on page 16, then read and write

- Help students find page 29 in their Activity Books.
- Exploit all the visuals and elicit as much language as possible.
- Circulate and offer help and support.
- Show students they need to take words from the word box and write them in the sentences.
- Look at the first one with them. Then ask them to continue in pairs.
- Circulate and check everyone's on task.
- Check answers with everyone at the end. Ask students to read sentences aloud.

Answers:

- Do one or two with them as examples.
- Then, ask them to continue in pairs.
- Circulate and check everyone's on task.
- Check their answers as a class.

Extra practice

- If time allows, exploit the family trees students made last class, which are now pinned up around the class. Walk around with students, pointing out the families and elicit from students the different details, e.g. *Who's this? Her mom/grandma, etc.*
- This works well as it gives students a chance to get up and move around to refresh themselves and become energized.

3 Read and write Yes or No

- Have students describe the pictures.
- Show them the example.
- Then, ask them to continue in pairs.
- Circulate and offer help and support.
- Check answers with the whole class.

Answers:

4 Read and match

- Write up a few questions and their respective answers, all jumbled up, on the board.
- Have students come up to the board and give them a pen to link up the question with the correct answer. Continue with a few more.
- Now ask them to go back to their books and show them they should do the same in this exercise.
- Ask them to work in pairs to continue.
- Check answers with the whole class.

Answers:

Extra practice

- Say that in a minute all students will stand up and move around the class and ask each other questions about their families, such as *Do you have a sister?*, *Do you have a cousin?*, etc. It's best to give them just one question each. They then get up and mingle, asking their questions, giving an answer and moving to the next person. Circulate and help, as necessary.

Closing

- Ask students to make more sentences about their families and to describe people in their families.
- Say *Now you can talk about your families, say if your family is big or small, describe the people in your families, ask other people about their families, talk about helping in the house and you can make a family tree.*
- Praise students for their hard work on Unit 2. Tell them that in the next unit, they are going to talk about different places and what they do at different times.

Unit 3

LESSON 1 SB pages 30-31 AB pages 30-31

- Objectives:** To identify places at school
To identify classroom items
To ask and answer about classroom items
To read and write the new vocabulary
- Vocabulary:** *school, classroom, playground, sports hall, whiteboard, table, chair, pencil case, pen, pencil, eraser, ruler, sharpener*
- Language:** *What's this? It's a ... Here's the ... I like my ...*
- Materials:** Student's Book pages 30 and 31
Activity Book pages 30 and 31
Class CD
Flash cards: school, classroom, playground, sports hall, whiteboard, table, chair, pencil case, pen, pencil, eraser, ruler, sharpener
Extra copies of the school, classroom, playground and sports hall flash cards
Stationary realia: pencil case, pen, pencil, eraser, ruler, sharpener
Colored pencils for the drawing in the Activity Book
Soft ball for final activity

Opener

- Play *Noughts and crosses* (Games bank, page 210) to revise family vocabulary from last class. The language to be checked can be placed on the board as flash cards and family cards from last unit, however do not specify which flash card matches with which number on the Noughts and Crosses board. The students choose a number for the square they would like to win, then you choose the flash card for that square; if they are correct then you mark the grid with a nought or a cross, as relevant.

Presentation

- Using the flash cards, present the following new words: *school, classroom, playground, sports hall*.
- Check the pronunciation, chorally and individually.
- Now, for the mingle activity, give each student a card. If you have a large number of students in the class you will need copies of the flash cards, so each student has one. Have students move around the classroom, teaching each other their word.

Unit 3 In my community

1 Look, listen and read

- Move with them and help with any pronunciation difficulties.
- As a final round-up, have everyone sit down and check the words again together, as a class.

STUDENT'S BOOK

page 30

1 Look, listen and read

- Help students to find pages 30 and 31 in their Student's Book.
- Ask students to say who and what they can see in the pictures.
- Explain that you are going to play the CD and ask students to follow in their books as they listen. Play the CD and point to the different elements as the girl speaks.
- Say *Look, listen and read*. Students follow the CD again, sentence by sentence. Ask students to repeat the sentences.
- Ask a few simple questions: *What's this? What can you see?*, etc.

Audioscript

Girl: *This is my school.
Here's the classroom.
Here's the sports hall.
Here's the playground.
I like my school!*

What's in my classroom?

3 What's in your classroom? Point and say

Language: What's this? It's a ...

Vocabulary: whiteboard, table, chair, pencil case, pencil, pen, eraser, sharpener, ruler

Extra practice

- ☐ Ask students to read the monolog in groups of four, with everyone saying the last line together.
- ☐ Circulate and monitor their work.
- ☐ Make sure they're saying their lines with feeling, not just in a bored monotone.
- ☐ Ask one or two groups to act out their monologs to the class.

2 Look, listen and say

- 1 Using the flash cards, present the following new words: *whiteboard, table, chair, pencil case, pen, pencil, eraser, ruler, sharpener.*
- 2 Check the pronunciation, chorally and individually.
- 3 Now, for the mingle activity, give each student a card. If you have a large number of students in the class you will need copies of the flash cards, as mentioned above. Have students move around the classroom, teaching each other their word.
- 4 Move with them and help with any pronunciation difficulties.
- 5 As a final round-up, have everyone sit back in their chairs and check the pronunciation of the new words once again.
- 6 Ask students to look at page 31. Ask them what they can see in the list.
- 7 Ask them to read the list together.
- 8 Have the stationary realia on your desk and hold it up to check meaning and pronunciation.

- 9 Play the CD and have students say the words again.

Audioscript

whiteboard, table, chair, pencil case, pencil, pen, eraser, sharpener, ruler

Extra practice

- ☐ Play *Memory* (Games bank, page 209). Put some stationary on your desk, as per new vocabulary, with multiples of each. Invite all students to come up to the front to look at your desk and concentrate on what they see – tell them that in a minute you will cover the items and they will make a list of what they remember. Then cover all the items and students return to their desks, writing what they remember. Give them a few minutes to write, using their Student's Books to show them the spellings. Then see who remembered the most words, with the correct number. You could then have them close their eyes and you take away one of the items – they have to guess what is missing. Do this a few times.

3 What's in your classroom? Point and say

- 1 Have students work in pairs. They should point to different things in the classroom and ask each other what they are, e.g. *What's this? It's a pen,* etc.
- 2 They could then work in small groups to extend the questioning.
- 3 If space allows, you could ask them to stand up and move around the classroom, asking and talking about different stationary.

Extra practice

- ☐ Say one of the items of stationary, and students have to point to it or hold it up for you.

Unit 3

- 4 Circulate and check everyone understands what to do. Help with handwriting skills if necessary.
- 5 Check answers as a class.

Answers:

- school

- Say *Good, you can now talk about all the things in the classroom.*
- Explain that in the next lesson, they will learn more about things to do in the classroom.

Unit 3

LESSON 2 SB page 32 AB page 32

Objectives: To identify key classroom verbs
To follow classroom rules
To talk about your own classroom rules
To trace key classroom verbs
To use affirmative and negative imperative forms

Vocabulary: *listen, look, read, write, sing, play, eat, drop litter*

Life skills: Self-management: at my school

Language: *Listen to your teacher; Don't eat in the classroom; Look at the board.
I sometimes (go to a restaurant).*

Materials: Student's Book page 32
Activity Book page 32
Class CD
Stationary realia: pencil case, pen, pencil, eraser, ruler, sharpener
Flash cards with listen, look, read, write, sing, play, eat

Opener

- Revise classroom vocabulary with *Memory* (Games bank, page 209).
- Play *Mime it* (Games bank, page 209) to revise some everyday actions, e.g. play football, go swimming, read a book. Then have students on their feet to mime what you say. This will help prepare students for the imperatives in the lesson.

Presentation

- 1 Present the new words with the flash cards.
- 2 Carefully say each word and have students repeat chorally and individually.
- 3 They will be fairly familiar with some of the words as they will have seen them in rubrics, but it's useful for them to have some formal presentation of them.
- 4 You could now do some Total Physical Response activities whereby students mime what you ask them to do, e.g. *Read your book, Listen to the CD, sing the song*, etc.
- 5 You also need to teach the meaning of *Don't*, so you could practice this with, e.g. *Look at me, Don't look at the door, Stand up, Don't sit down, Sit down*, etc.

RULES

- 1 Listen to your teacher.
- 2 Don't eat in the classroom.
- 3 Look at the whiteboard.

4 Point and say

I follow school rules.

Language: Listen ... / Don't eat ...

- 2 Ask students to listen to the CD and to read the labels.
- 3 Play the CD again. Students listen and repeat.
- 4 Check pronunciation chorally and individually.
- 5 To check meaning, mime a few of the verbs quickly for students to guess.

Audioscript

Listen, Look, Read, Write, Sleep, Sing, Play, Eat, Drop litter

2 Mime and say with a friend

- 1 Ask students to look at pictures in Exercise 1.
- 2 Ask them to work in pairs. One student says one of the verbs and the other mimes it, then they swap around.

3 Read the school rules

- 1 Ask students to look at the list of school rules.
- 2 Read them for students to repeat.
- 3 There are some tricky elements in these sentences, e.g. the prepositions, but don't pay special attention to them at this stage (because this may complicate things) unless students specifically ask for clarification.

At my school

1 Look, read and trace

2 Now point, mime and say

3 Read, match and say

4 Point and say

- 1 You should explain that now the focus has come back to the students' own school and the rules here.
- 2 Help students to articulate in English what their rules are.
- 3 They might be things like *Don't shout!*, *Share your things*, *Don't run in the corridor*, *Raise your hand to speak*.
- 4 As a class, with you writing and students dictating, you could make a poster of your school or classroom rules.

ACTIVITY BOOK

page 32

1 Look, read and trace

- 1 Help students to find Activity Book page 32.
- 2 Exploit the pictures and have students say the words. Check pronunciation.
- 3 Now, holding up your Activity Book and using a pencil, trace the letters to make the word in the first item.
- 4 Ask students to continue.
- 5 Circulate and check everyone's on task. You may need to give help with handwriting skills, such as holding a pencil.

2 Now point, mime and say

- 1 Students can now point to the words they've traced.
- 2 They can mime and say them.
- 3 They can work in pairs, then point at specific items for their partners to mime and say.

Extra practice

- Play *Teacher says (1)* (Games bank, page 211). Use this game to practice the vocabulary and language on this page in mime form. Give instructions for the students to carry out with you. Say: *Teacher says... sing a (song)* and mime singing a song. Students copy. Continue with other verbs on this page. Then say *Write your name* without saying *Teacher says*, and show students that you are not doing the action. Students only do the action if you say *Teacher says*. Continue with the game but if you say an action without saying *Teacher says* then the students who do the action have to leave the game. Continue until there's one student left and they are declared the winner.

3 Read, match and say

- 1 Draw students' attention to the verbs.
- 2 Then, show them the second part of the sentences.
- 3 Show them they should connect the two parts of the sentences with their pencils.
- 4 Circulate and check everyone's on task. Offer help as necessary.
- 5 Check answers with the class.

Answers:

Play with friends.
Throw trash in the trash bin.
Don't sleep in the classroom.

Closing

- Give students some nouns for them to give you the verbs, e.g. *your lunch (eat)*; *your name (write)*; *song (sing)*; *a game (play)*.
- Explain that in the next lesson, they will talk more about things they do at school.

Unit 3

LESSON 3 SB page 33 AB page 33

Opener

- Play *Catch and say (1)* (Games bank, page 208) with things in the classroom.

STUDENT'S BOOK

page 33

1 Look, listen and read

- 1 Help students to find page 33.
- 2 Ask students what they see in the pictures.
- 3 Help students understand all the elements in the sentences.
- 4 Play the CD. Students listen and read along.
- 5 Play the CD again. Students listen and repeat.
- 6 NB: They are now reading sentences rather than phrases, so they will need help with sentence stress, so when you pronounce the sentences give more volume to the key words, like the nouns and verbs and less to the less important words like the prepositions and personal pronouns. This will serve as an excellent model for your students. Point out that we don't pronounce the 't' in 'Listen'.

I play at the park with my friends.

Materials: Student's Book page 35
Activity Book page 35
Class CD
Flash cards: school, park, market, bakery, butcher's, houses, fruit, meat, bread
Coloring pencils

Opener

- Play *What's missing?* (Games bank, page 211) with the flash cards from last class. Stick them up on the board, practice pronunciation, then ask students to turn around and face the back of the class. Take out one picture and re-jig the others. Students have to guess which flash card is missing. Continue doing this for a few turns until the pace starts to drop.

Presentation

- Show the flash cards for the three new words: *fruit, bread* and *meat*.
- Practice the pronunciation chorally and individually.
- Now put up the new words on the board to the right of the others (the town words from last class).
- With your pen, draw lines between the words (i.e. flash cards), then make sentences like *We buy fruit at the market*, *We buy meat at the butcher's*, *We buy bread at the bakery*, and *I play at the park with my friends*.
- This is the first time that students have produced complete sentences so they may need some time to internalize the information.
- Point to the two related cards and have students come up with the sentences.

- Watch students and only intervene if the pronunciation of words is being taught wrongly.
- Ask students to sit down with their flash cards.
- Play *Stand up if...* (Games bank, page 210) so students stand up if you say the word on the flash card they're holding, then sit down.

- Then ask them to work in pairs to point and say the other words.

Extra practice

- Ask students to think which they like best: swings, slide, roundabout or climbing frame.
- Write up a simple grid on the board or have one prepared for each student before class.
- Students should mingle and ask 1) for their classmate's name and add it in the space, then 2) what they like to play on. They should do this by asking: *Do you like ...?* Then adding a check or cross according to their answer.

At the park

- Have them sit down and ask who likes each play thing.

3 Read again. Check (✓) what Hana and Hany play on

- Ask students to go back to Exercise 1 and see what Hana and Hany play on.
- Give students time to read, then check the answer (*the swings*).
- Then ask students *What do you play on?* to tie in with the survey they've just carried out. You could also ask them about each other, e.g. *What does (Ahmed) play on? What does (Fatima) play on?* They should know as they've asked them in the survey.

1 Read and number

- I play on the climbing frame.
- I play on the slide.
- I play on the swing.
- I play on the roundabout.

2 Listen and read

What do you do at the park?

I ride my bike.

I play with my jump rope.

I throw a ball.

3 Now ask and answer

What do you do at the park?

I play on the slide.

- Have students continue in pairs.
- Circulate and check everyone's on task. Help if necessary.
- Check answers as a class.

Answers:

2 Listen and read

- Look at Amira's question with students.
- Then talk about what the children are doing.
- Have students repeat the sentences after you.
- Play the CD and have them repeat the sentences again, chorally and individually.

Audioscript

Boy: I ride my bike.
Boy: I play with my jump rope.
Girl: I throw a ball.

3 Now ask and answer

- Refer students back to the question *What do you do at the park?* in Exercise 2.
- Make sure you say it naturally and fluently for students to repeat, i.e. /'wɜːtəbuː'duːə'təðə'pa:k/. Have them looking at

I play ...

Unit 3

1 Read, point and complete

you and repeating your pronunciation – if they look at the words on the page they will become distracted.

- Practice the answers again and have students respond to the question as you ask it.
- Put them in small groups and have them ask and answer.
- Now, back in plenary, ask them again, as a genuine question. Some of them may have different answers to the ones in the book, e.g. *I play football, I play tennis, I swim in the swimming pool.* Help them say these in English.
- To provide further practice, you could now ask students to get up and mingle, asking and answering the question.

ACTIVITY BOOK

page 37

1 Read, point and complete

- Help students to find page 37 in the Activity Book.
- Exploit the pictures and elicit the vocabulary in Exercise 1. Check any pronunciation difficulties.
- Show students the complete words in the box and have them read them out loud.
- Show them how to follow the lines to the incomplete words.
- Do item 1 as an example.
- Show them that the first word is incomplete – write it on the board and have students complete it with you.
- You may like to ask a student to come to the board to write in the letters.
- Ask students to work in pairs and continue.
- Circulate and check everyone's on task.

- Check the answers as a class. You could do this by writing the other incomplete words on the board and asking students to come to the board to write in the missing letters.

Answers:

1 swings 2 roundabout 3 climbing frame 4 slide

2 Read, trace and match

- Ask *What do you do at the park?* again to the students and elicit a few genuine answers.
- Point to the pictures and elicit the sentences from students.
- Take your Activity Book and your pencil, show students how they should match the sentences with the artwork.
- Then ask them to trace the sentences and then read these sentences out loud.
- Ask them to continue and check everyone's understood.
- Check the answers as a class.

Answers:

1 I play with my jump rope. 2 I throw a ball. 3 I ride my bike.

3 Now point and say

- Point to some of the pictures and elicit the sentences from students.
- To energize the class, students could get up and mingle, holding their Activity Books and pointing to the pictures for their classmates to say the words/sentences. NB This works well because it means that students work with new people and not just the people they always sit with. It also gets them on their feet and has them moving around, so will provide new energy for the activity.
- Ask students to sit down.

Extra practice

- Stick all the flash cards (including multiples of) around the room or put them on desks near the front.
- Say you will say one of the words or phrases from the lesson; if the students can see the relevant flash card they should put up their hands.
- You choose one of the students to go and take the flash card, then check it's correct with everyone. That student now becomes the speaker, and they say a word/phrase from the lesson and other students should put up their hands, one is chosen, takes the flash card, shows it and has it checked by the class. That student becomes the new 'speaker' and so the game continues.

Closing

- Say *Now you can talk about what you do at the park.*
- Praise students for all their hard work.
- Explain that in the next lesson, they will learn about a new phonics sound.

Opener

- Play *Mime it* (Games bank, page 209) with the words from last class. You mime actions for students to say phrases/ words, e.g. *ride a bike/climbing frame*, etc.
- Once you've revised all the vocabulary, have students stand up and mime the vocabulary as you say it. If time allows, you could ask them to continue in small groups.

Presentation

- Draw a picture of a boat on the board and ask *What is it?* Elicit *boat*.
- Write the word on the board and circle the letters *oa*.
- Point at the letters and say /ðv/. Students repeat the sound /ðv/ with you.

- Point to the coat. Say the word *coat*. Say /ðv/ *coat*. Point to the letters *oa* and show the students how to underline them. Do the same with *yellow*. Ask the students to underline *ow*. Then repeat with *nose*. Ask the students to underline *o* and *e*.
- Ask students to check answers with their partner.

3 Trace and say

- Ask students to say what they can see in the pictures and to read the words in the box. Make sure they pronounce the /ðv/ sounds correctly.

Extra practice

- Have a game of *Stand up if ...* (Games bank, page 210): give students a flash card or two from the lesson and then you say either *town*, *school* or *park*. They should stand up if their word relates to the correct lexical set, e.g. if you say *town* and they're holding the bakery flash card, they should stand up. You could then make it more specific and say the specific words – they should stand up if you say their word.

Opener

- Play *Point to the picture* (Games bank, page 210) using the flash cards for family and places in town flash cards.

- Give out the slips to the students and drill a few, also elicit from students what the possible answers could be.
- Then have them stand up and move about, saying their question or answer (preferably not showing it) to the others and, if they can match it, keeping the slip. The idea is to keep as many matching slips as possible.
- Once everyone has matched their slips, come back to plenary and review the questions and answers again.

Presentation

- 1 You should now review some of the key verbs in this first part of the Student's Book, i.e. *write, ride, eat, sing, stand up, listen, wave goodbye*.

Closing

- Tell students that they have now read a text about houses around the world. Praise their achievements.

Extra practice

- Encourage students to make a 'favorite house' chart.
- Draw this example on the board or give students a copy of the pre-prepared grid:

Name	Terraced house	Cottage	Apartment	Houseboat	Turf house	Cave
Ahmed		✓				
Dina				✓		

- Ask students to write in all students' names on left-hand side. If you have a large class, give them 10 names each to write and make sure everyone in the class is interviewed.
- Then, ask them to stand up and mingle, holding their grids, a pencil and something to lean on. They should then ask 'What is your favorite house?' and check the correct box.
- When everyone has finished, ask them to sit down and have a feedback stage: ask them *Who likes terraced houses? Who likes ...? Why?*
